Touchscreen Pos For Retail

Software is developed in Adelaide and sold nationally

Reporting

You are always in control with over 200 reports.

Your sales information can be directly imported into Xero or MYOB via the API.

Reports can be automatically emailed to you daily or can be viewed any time via our smart App

Customer Loyalty Rewards

RetailPos Advantage has a built-in rewards system allowing you to create and maintain a database of frequent shoppers. You can reward your shoppers with discounts, reward points special offers and deals for members only. Or target market to customers based on their purchase history via Email or SMS.

Mobile App

Have a branded smartphone app to allow customers to place orders off their smartphones direct to you
