

Graphical Table Layout

With table status i.e., Occupied, Bill Printed, Order Held from printing & more.

Easy to change table lay out add picture floor plan background with clear visual status of the tables. Also available on handheld ordering tablets.

BAR TABS & CUSTOMER HISTORY

Your customers can see their bar tab on any smart phone device.

Customers can also view purchase history on their smart phone.

MEMBERSHIP & CUSTOMER LOYALTY

The membership is advanced with the ability to set different Club types, (i.e., Gold, Silver & Bronze) with the ability to create offers for members only such as instant discounts, reward points, prepaid members cards, Gifted reward \$ VIP only specials

Customers can be automatically emailed to remind them of soon to expire reward points.

The above module is extra. Please ask.

Minimal to no downtime

Each point-of-sale terminal does not rely on making a connection to the Server for it to operate, so if the Server gets switched off, or gets damaged Your business can continue to run and trade.

We can offer a full "Turnkey Solution", from hardware and software all fully supported by us, so no more having to call multiple suppliers if things go wrong.

BISTRO FOOD ORDERS

With the Bistro feature enabled problems with taking Food Orders for a Table are gone!

Persons ordering food at the same table can pay for their own meal and the sale can be "Held" until the final order for that table is taken, then the entire order is then sent to the kitchen. As one docket and automatically sorted by Entrée, Mains & Dessert as required.

KITCHEN VIDEO

RetailPOS Advantage provides the choice of printing Orders, utilizing a Kitchen Video to view orders or use both.

RetailPos Advantage

Touch Screen Point of Sale
Software for Hotel's Pub's & Club's

"Rental of Software options available"

Terms and Conditions apply

Easily Add New Products

New products & prices can be changed from any POS Terminal if you have the rights to do so. Other POS Terminals will automatically update. There is no need for a back-office server PC; however, it is possible to have a local or remote (off site) office computer.

Add and Manage Daily Specials

Daily Food & Drink specials can be added to automate Start/Expiry Date and Start/Stop Time. Deals like "Burger & Pot" to be sold at a set price and on specific days can be easily added.

Geelong Point Of Sale
Leopold VIC 3224

03 4244 0367

Stock control with over 30 Reports!

Simple and Easy. **This module is extra. Please ask.**

Real time stock control, by individual Bar or any Location.

Smarter stock control

Stock is reduced by the quantity sold (i.e., 425ml) and not a fractional calculation. So, a 425ml product reduces Stock on Hand by 425ml not a fraction of the container

Recipe Control for products sold can also be used (includes Food and Drinks) knowing the price and controlling the profitability of all items including Condiments & Sauces.

The System provides a suggestive number of Days of Stock on hand.

Suppliers

Stock can be ordered and received by Supplier. Purchase orders are generated, emailed, and stored in the system for easy Goods Received.

Vouchers

Print Vouchers from the System to Reward Good Players, Best & Fairest Players, Birthdays and more.

Vouchers are great for Kids Menu where a Drink and Ice Cream are included with the meal.

Vouchers are printed with an expiry date.

Integrated EFTPOS

Integrated Eftpos available with Tyro, PC-Eftpos or Smart Pay.

RetailPOS Advantage - world class software designed and developed for Australia and the World.

Retail Solutions Have been a market leader in Cash Register and computerized Point of Sale solutions for over 20 years.
